1. FEE AND FINANCE MANAGEMENT

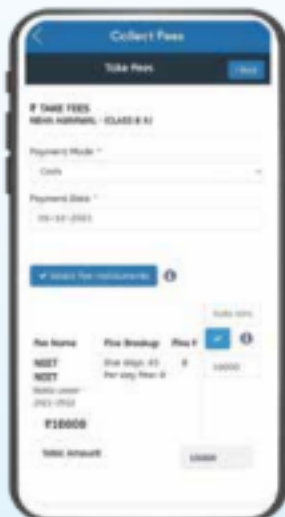

Institute Management a dynamic and robust module to set the base of an institute's structure. It provides step by step actions to do basic infrastructure setup of an institute with primary settings.

It's designed to help institutes configure their basic setups as quickly as possible with a variety of dynamic use-cases covered to solve a lot of key problems associated with managing educational organisations.

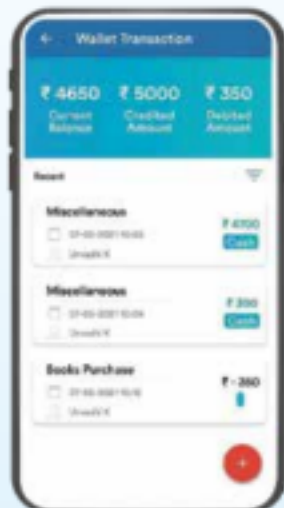

1.1 FEE MANAGEMENT

Easily access data of Fees collected in various categories through various modes of payment and generate diversified reports using our software ERP software. Fee reports of Total amount to be collected, amount paid so far, amount due, amount refunded or amount provided as a discount can be generated. Collecting fee payment digitally has become a common need at every educational organization. It brings an integrated efficient system which makes the entire process and operations extremely effective and saves a lot of time and resources for all the associated stakeholders. Our payment gateway transactions can be done using Credit/Debit cards, Internet Banking and UPI.

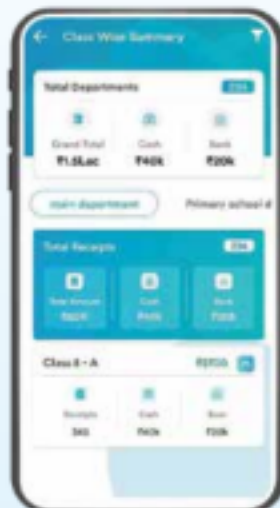

Parents can check all transactions done from Student Wallet in our School Management app.

CLASS WISE SUMMARY

FEE REPORT

1.2 ONLINE FEE PAYMENT

Our payment gateway transactions can be done using Credit/Debit cards, Internet Banking and UPI. All the major institutes have already experienced one or other way of collecting fees digitally. However, having a robust and effective model with high payment success rates without any issues makes the overall experience wonderful.

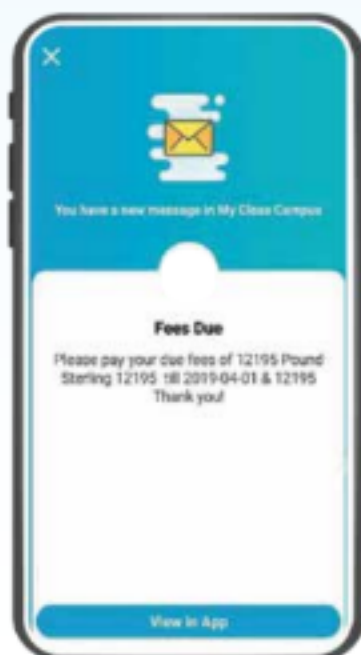

Accepting fee payments digitally doesn't only bring productivity but builds reputation in parents mind about the institute's concern to give better service and experience to students/parents.

PAY ONLINE FEE

1.3 SMS ALERTS FOR PAYMENT FEES

Send direct messages and notifications to the parents and students regarding the last date of fee payment, amount due etc. You can also customize these messages for specific students

FEES DUE

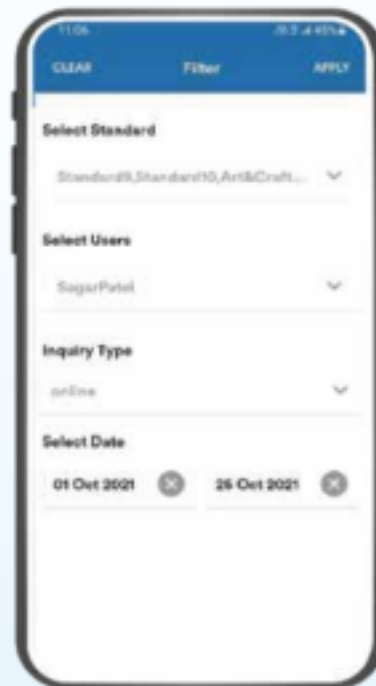

2. INQUIRY AND ADMISSIONS

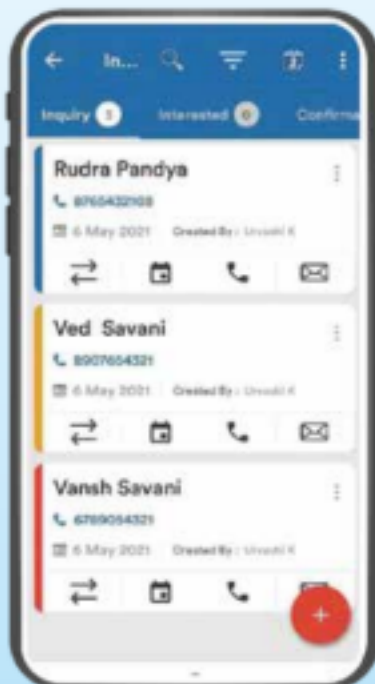

Skip that endless process of maintaining excel data sheets or manual book keepings for managing all student inquiries. With our inquiry management module all admin needs to do is feed in the information of inquiring students. After an enquiry is added on Inquiry management system, the institute admin is required to perform continuous follow-up with the parents/students to ensure that they are satisfied with the institution. But it is tedious to remember all follow ups. Let our system help you remind us to follow up.

ADD NOTES

ONLINE ADMISSION

Online Admission Software is designed in a unique way to cover the needs of all kinds of educational organisations for designing custom forms with attachments to ease the paperless admissions process. It has integrated CRM which covers management of admission forms/inquiries submitted by students/parents. Leads can be assigned to counsellors for taking the admission process to the next level.

CREATE INQUIRY

3. STUDENT MANAGEMENT

3.1 USER MANAGEMENT

It's an important section to add/edit/access/ban/remove users of the system. It gives an option to add users based on roles through single entry or bulk upload. It has a dynamic feature to access role wise user data with multiple filters. It gives direct access to a detailed use profile.

ADD NEW USER

OTHER BENEFITS FOR STUDENTS

- Id-Card & Certificates
- Ready templates
- Custom designs
- Bulk generation
- Dynamic fields
- Application history
- Print history

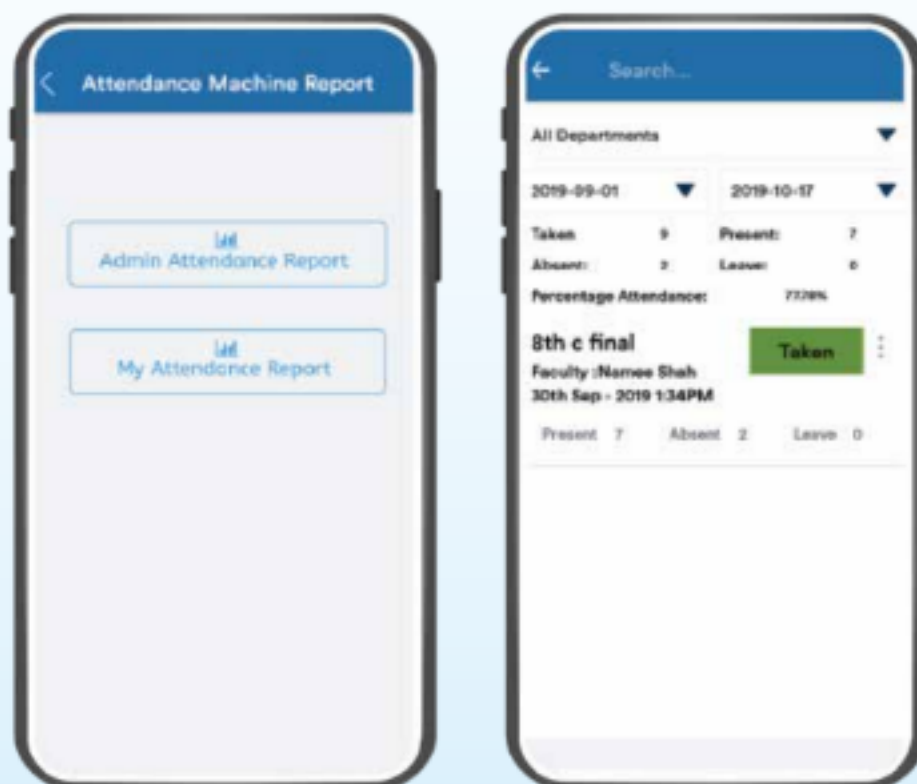

4. ATTENDANCE MANAGEMENT

4.1 MANUAL APP OR WEB BASED ATTENDANCE

This has wide options of marking attendance class/subject wise based on school preference. In this option concerned teachers can use their Mobile App account or web account to mark attendance. It hardly takes 30 seconds to complete attendance of a class. It has smart options to record attendance by tapping on student name who's absent. Also there's an option to mark with absent roll number.

This is an instant attendance recording option where parents can instantly check on their App about their child's present/absent status.

This is one of the smartest student attendance system and is widely preferred by schools.

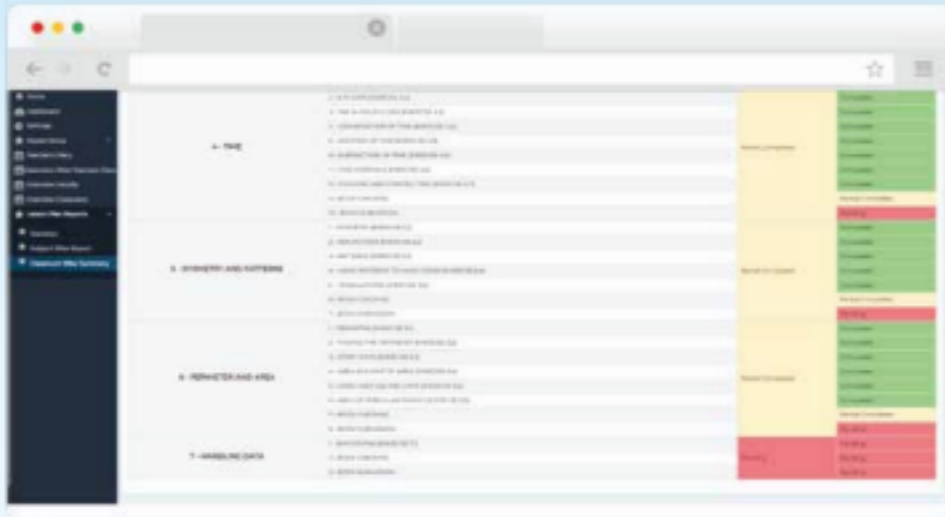

ATTENDANCE TRACKING AND REPORTS

5. ACADEMICS MANAGEMENT

5.1 LESSON PLANNER

School curriculum is decided - For each Subject of a Classroom - Lesson, Chapters, Topics, Lectures are pre-defined. They track the same using Teacher's diary. Monthly or Weekly planning is done using this feature at various institutes. This feature can enable the Owner/Admin to track the performance of the Teachers/Faculties on the basis of the regular activities. Teachers can use this tool for reporting to the Principals or Institute Admins during meetings or while briefing about their work.

5.2 TIME TABLE

Through this School Administration Software, it will be easy to manage Proxy period of teachers, which save the time and efforts of administrative staff. Creating timetable, assigning proxy period, and managing faculty timetable is very easy with our Institute Management System. Timetable is immediately posted to all the Students/Parents and all the respective teachers of the institute once it is being updated by the administrative staff.

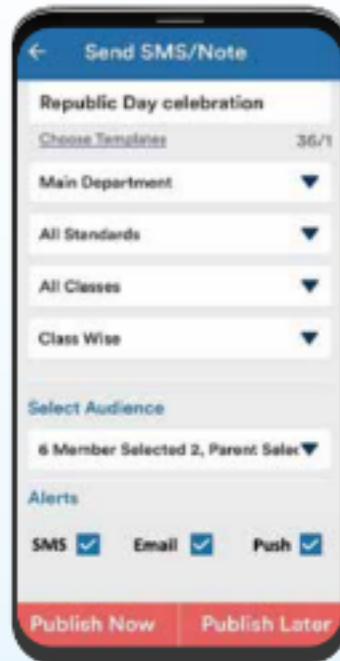

5.3 RESULT GENERATION

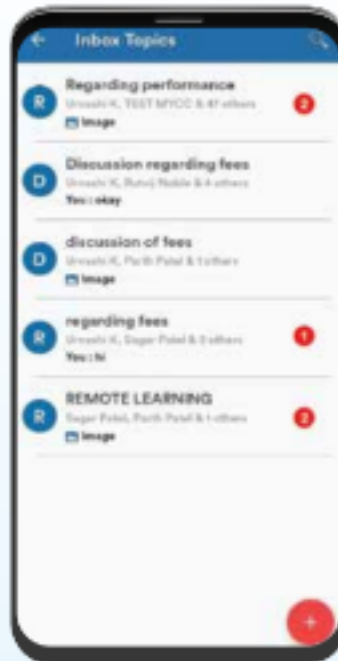

Manage all exams for your institute taken weekly, monthly, bi-monthly, quarterly, half-yearly and annually. Easily notify your students and parents through SMS or App notification for each exam created. Also notify your users, when you declare the result.

6. COMMUNICATIONS MANAGEMENT

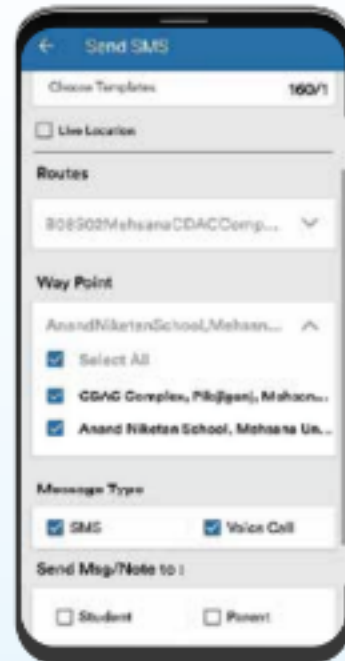

- Customized announcement options with dynamic communication options and timeline. Send quick circulars : Class, Role, Department and Branch wise
- Modern ways of communicating through different channels. Winning over the hurdles of smart phone accessibility. REAL-TIME, QUICK & EFFECTIVE.
- Secure and organized communication options with central data analysis

7. ADD ONS

7.1 WEBSITE BUILDER

Dynamic Website is a uniquely designed platform through which an educational institute can design unlimited pages with different layouts and content formats to present their institute and services in the most effective digital form.

It provides facility to add content in text, photos, videos and attachment form to provide maximum information and resources to visitors. Take a quick demo by connecting our sales team to experience the new way of launching and maintaining website which doesn't require technical skills to update on regular basis.

7.2 FEE EMI OPTIONS

No interest EMI option. Under this service, parents can apply for an EMI option. If their credit score matches desired then within 24-48 hours, they will get a credit line to pay for the school fee in advance to the school with an auto debit EMI option without any additional interest charges.

Schools get a fee in advance for the full year which becomes very helpful as working capital for running operations effectively.
